

APP-INSTRUCTION

ALSO POSSIBLE
WITH YOUR
OWN SPORTS
TRACKER!
SEE PAGE 2

STEP 1: INSTALL THE RACEMAP APP

Download the Racemap app on your phone from the Google Play Store or the App Store. Give Racemap access to your location to track your activity.

STEP 2: CLICK ON THE UNIQUE APP URL IN THE NEWSLETTER

Check your name or enter your (fictional or real) name and check your race number.

Click on the blue button 

Click on the blue button 

STEP 3: START / STOP LIVE TRACKING

Use this button  to start your tracking session

You can pause/stop your tracking session via this button 

Tap here to display the status bar. You will see the progress of your tracking session(s).

Pay attention!

- Did you exercise a longer distance than you registered? The app calculates your finish time for the distance you registered.
- Turn off your location services again, so that the app no longer follows your daily movements!

Live tracking of participants and the rankings

Select your event.

Search for a participant by name or race number and follow him / her on the map.

This arrow  will take you back to the screen where you can start your tracking session.

Via the button  you enter the live ranking.

View your position and the position of friends in the leaderboard. The results are updated every minute.

Do you prefer to use your own sports tracker?

By uploading a GPX, KML or TCX file (file types for saving distances / routes) you will be shown in the online leaderboard.

Upload Track

Use your sports tracker such as Garmin, Polar or Suunto and upload recorded activities into a specific Tracking Map. Your activity will be visible in the replay of the Tracking Map and in the leaderboard (for applicable Maps). Supported formats: GPX, KML and TCX.

Enter the Racecode or a Tracking Key to select the correct Tracking map. Using the same Tracking Key you can upload multiple activities or segments into one Tracking Map.

Track:

Upload

Follow the 5 steps below:

1. Log into your own sports tracker account on your computer.
2. In your profile, go to the activity.
3. Click on the activity, choose "export as GPX / KML / TCX" and save the file on.
4. Go to racemap.com/upload, enter your key* and upload the file.
5. View your finish time and rank on the leaderboard in the app.

* Your key is a 6-digit code. The key is the last part of the app URL you have received in the digital newsletter with participant info. The key is the part after the =-sign.

Example: https://racemap.app/redeem_key?key=XXXXXX

PAY ATTENTION! Exercise an extra 200 meters to ensure a finish time! No sports tracker is 100% accurate!*

*No sports tracker is 100% accurate. For example, Strava records your activity with an average inaccuracy of 10%. Each tracker interprets the data in its own way, from which time and distance follow. This logically results in different times and distances if the file is uploaded in different applications.
